Matson, Driscoll & Damico forensic accounting experts have extensive experience assisting insurers in calculating accurate Income Replacement Benefits as legislated under the Statutory Accident Benefits Schedule (SABS). In fact, MD&D is one of Canada's leading investigative and forensic firms providing a broad range of accounting and legal services to the insurance community.

Their proactive front-end initiatives such as a thorough and rapid investigation results in delivery of timely and complete reports on the case in question. These reports, prepared by MD&D specialized partners, help meet the insurer's needs for fair and accurate assessment, can help prevent the claim from escalating to the dispute level, and result in faster processing of payments to the insured which may also result in improved customer satisfaction.

This specialized service comes from in-house experts who stay current on ever-changing automobile/accident legislation and regularly review on-going and recent arbitrations that could affect their independent assessments. MD&D experts understand the type and scope of documentation required to successfully resolve a claim – on a

case-by-case basis. For instance, the documentation required for a self-employed individual differs substantially from a corporate employee.

When you need help in creating a settlement in the case of income replacement benefits, call MD&D and allow them to help you save time, money and effort.
